ROPE HANDLE INSTRUCTIONS

1. Remove black heat shrink from the ends of each rope.

2. Pull one end of the rope through the round grommet hole, from outside in.

3. Tie an overhand knot inside the Square Barrel, leaving as little excess rope as possible.

TIP: How to tie an overhand knot:

Form a loop and pass one end of the rope through. Tighten the rope to secure the knot. When pulled tightly, the knot will serve as a stopper, securing the handle.

4. Complete an overhand knot on the other end of the rope.

5. Repeat process for the opposite handle.

SNAP-ON BASE INSTRUCTIONS

Snap-On Base Removal

1. Flip your Square Barrel over, bottom up.
2. Place hand under one tab and slide fingers up between Square Barrel and Snap-On Base until it detaches.
3. Repeat on all sides to remove.

Snap-On Base Installation

1. Flip your Square Barrel over, bottom up.
2. Lay the Snap-On Base on the bottom of your Square Barrel, face down.
3. Line up one of the tabs and the remaining three tabs will line up as well.
4. Apply firm pressure to snap the Snap-On Base into place.
